

Dear Valued Partners,

Greetings from Six Senses Laamu and we hope you are well and keeping safe. Firstly, we would like to share our sincere thanks to you for your continued support. As we venture into Q2 of 2022, we wanted to write to you with an exciting update on what we have planned for our island home and our guests over the coming calendar year.

Island Enhancements

2022 will mark an exciting chapter in the history of Six Senses Laamu as, in an effort to develop an even deeper guest connection with the beautiful Laamu atoll, we will be making some enhancements to our property including:

- The development of a state-of-the-art **Marine Discovery Center** on our Sunset Beach, which will feature a large exhibition space, a research lab for the Maldives Underwater Initiative team, a marine-focused kids' space for our Junior Marine Biology program and an innovative presentation room including virtual reality and a cinema space
- The creation of our largest villa yet- a **Three Bedroom Beach Villa** (with possible fourth room add-on) with a private pool that reaches out over the lagoon. We will also be securing our coastal protection in our lagoon to eliminate any risk of erosion affecting this villa and other areas of the resort
- Private pools will be added to the remaining three beach villas which do not already have pools, meaning our property will become an all-pool villa product from a beach villa perspective

As you know, the guest experience at Six Senses Laamu is our highest priority and the above-mentioned projects are being conducted with this in mind. For any guest visiting us during these works, we guarantee they will be located in villas away from any works, and all our dining outlets and experiences will operate as usual during this time.

Island Events & Experiences

We are constantly innovating and reinventing the guest experience here at Six Senses Laamu to ensure that the guest experience we provide is truly out of the ordinary. Highlights of our events for next few months:

- An exciting schedule of activities will be on offer for the **Easter Celebrations** from April 14th to April 19th, 2022. Some unique activities being launched this Easter include a probiotics masterclass, an underwater Easter egg hunt and freediving classes for teenagers.
- **Climate Warriors** will be launched on Earth Day, April 22nd 2022. This complimentary two-day program for our Little VIPs will inspire and empower our future generations to have a positive impact within their environments and communities.
- **Local Island Excursions** will be on offer for guests at Six Senses Laamu again in the early summer months for the first time since the pandemic. The revamped experience will be led by local tour guides to provide guests with an even deeper insight into to the local way of life.
- Whilst the waves break year-round in Laamu, the **Surf Season** peaks from April to September. Tropicsurf, our partners in surfing, offer a range of experiences for guests every day- from beginner lessons in the sheltered lagoons to excursions to Yin Yang, the famous world-class wave just minutes away from the resort.

- The Maldives Underwater Initiative team (MUI) are expecting a busy summer ahead as these months are known to consist of marine spectacles including **turtle hatching** at the resort, **manta ray courtship** at nearby manta point and **coral spawning** on the house reef. They look forward to sharing these experiences with guests and especially the little VIPs who join them on their Junior Marine Biology program this summer holiday.
- In September this year, **Laamafaru Festival**, MUI's annual festival for the Laamu community, will return to the atoll and, for the first time since 2019, guests will be able to attend and celebrate 'Our Ocean's- Safe and Protected' together with local school children, teachers and parents.
- Several renowned **visiting practitioners** will be taking residency at our spa over the year including Adrian Yavah from May to July, Anil Singh from July to October and Ranjith Saj Malayil for our Festive Period.

This is just a sample of the experiences and events we are looking forward to sharing with your guests this year. Should you have any questions or need additional information, please do not hesitate to contact Michael Vance, Regional Director of Sales & Marketing via email at michael.vance@sixsenses.com

Thank you again for all of your support,
